- Dedicated and loyal

Curriculum Vitae of Nico Stephen Shaw

Career plan

I chose this course because I know I would like to do what I enjoy for the rest of my life. This isn't just where I see myself in five years. I take every opportunity and make the best of it. Every new day is new beginnings to take new opportunities and make a success. I know everything can be achieved through hard work and the right support group. .

All in its time and day by day.

Currently enrolled at the best university the North West University where I made new friends and focus on my study direction, computer programming. After that, I want to gain experience in my field of study and practice so that I can see where my talents can be adapted. Then making my name in work and hopefully own IT business that can change a lot of people's lives and build up the economy.
